WORK EXPERIENCE

Junior Developer

Sensiple Software Solutions

06/2023 - Present

Chennai

Achievements/Tasks

- Worked on a Laravel project from scratch, gaining experience in Express, MongoDB, Laravel, PHP, and MySQL.
- Led feature development for a CMS in Laravel, managing both admin and user modules.
- Developed modules as reusable packages and libraries, improving efficiency across multiple projects.
- Participated in code reviews to ensure compliance with established programming standards.
- Collaborated closely with the SEO manager to design and implement website enhancements, increasing user engagement, which led to a 40% boost in website traffic and a 25% reduction in bounce rate.

Trainee

Sensiple Software Solutions

01/2022 - 05/2023

Chennai

Achievements/Tasks

- Gained skills in JavaScript, Node.js, Git, GCP, Dialogflow, and Agile methodologies.
- Developed IVR expertise through projects like Astound (RCN) and REI.
- Collaborated with clients on design changes and reviewed teammates' code for quality.
- Participated in on-the-job training by working closely with supervisors and coworkers, asking relevant questions to enhance understanding.

EDUCATION

Master's of Computer Application - MCA

University Of Madras

06/2023 - Present
